WHEREAS, the Board of County Commissioners of Lee County, Florida is the governing body in and for Lee County; and

WHEREAS, the Lee County Board of County Commissioners recognizes that false alarms cause a misuse of the resources of the Lee County Sheriff's Office by causing the dispatch of units to the scene of a false alarm that renders these units unavailable to respond to legitimate emergency situations; and

WHEREAS, the Board finds that the continued high incidence of false alarms is a threat to the health, safety and welfare of the citizens of Lee County;

NOW THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS of Lee County, Florida, that:

SECTION ONE: SHORT TITLE, PURPOSE AND TERRITORIAL SCOPE

- A. This Ordinance will be known and cited as the Lee County False Alarm Ordinance.

is made, to determine whether an alarm signal is valid before requesting law enforcement dispatch, in an attempt to avoid an unnecessary alarm dispatch request. For the purpose of this Ordinance, telephone verification shall require, as a minimum, that a second call be made to a different number if the first attempt fails to reach an alarm user who can properly identify themselves to determine whether an alarm signal is valid before requesting law enforcement dispatch.

SECTION THREE: ALARM PERMIT AND FEE

- A. Except as otherwise provided under the definition of permit year, every alarm operator shall annually apply to the Sheriff for a nontransferable alarm permit. The permit shall be valid for one permit year and then expire.

3. the classification of the alarm site as residential, commercial, or governmental; and
4. the type of system, such as burglary, robbery, fire, or panic; and

9. any dangerous or special conditions present at the alarm site; and
 10. other information as required by the Sheriff.
- F. No permit will be issued when a fine is outstanding, when a reason for a previous revocation has not been corrected, or if the applicant provides false information.
- G. The alarm operator shall submit interim updated application information within fifteen (15) days of when the on file information has changed. A permit may be revoked if it is found to contain inaccuracies.

SECTION FOUR: FALSE ALARM PENALTIES

- A. Responsibility for false alarms shall be borne by the permit holder.
- B. The following fines shall be required for each false alarm per alarm system within one permit year:
1. first and second false alarms \$25.00 each; however, if the alarm operator has a valid alarm permit, then there is no fine for the first false alarm; and

- C. The Sheriff may offer an alarm awareness class to alarm operators. Alarm operators may attend the class in lieu of paying one fine per permit year.

SECTION FIVE: REVOCATION AND REINSTATEMENT OF ALARM PERMIT

- A. The sheriff may revoke an alarm permit if it is determined that:
 - 1. there is a false statement of a material matter in the permit application; or
 - 2. ten or more false alarms have been received by the Sheriff from the alarm site within a permit year; or
 - 3. there is a permit that has not been renewed or fines have not been paid at the time of renewal.
- B. An alarm operator whose alarm permit has been revoked may be issued a new permit if that alarm operator:
 - 1. submits an updated application and pays a \$50.00 permit fee; and
 - 2. pays all fines issued to the alarm operator under this Ordinance; and.
- C. The Sheriff shall notify the alarm monitoring company of a revocation, or reinstatement.

SECTION SIX: APPEALS OF FINES AND REVOCATIONS

- A. An alarm operator may appeal a fine or revocation under this Ordinance. The alarm operator shall notify the Sheriff in writing within ten (10) days of receipt of notice of fine or revocation. Proper notification of the Sheriff shall stay the

imposition of a fine, or revocation, until adjudication by the Alarm Review

Authority.

- B. The Alarm Review Authority (ARA) shall conduct a hearing and consider evidence presented by the alarm operator and by other interested persons. The ARA shall make a decision based on the preponderance of the evidence standard. The decision of the ARA is the final administrative remedy as to the County.

SECTION SEVEN: RESPONSE TO ALARM

The alarm operator or a responder listed on the alarm permit shall respond to the alarm site within thirty (30) minutes from the time of notification by the Sheriff of the activation of the alarm, whether false or not. The failure to respond, when directed by the Sheriff, may be deemed a violation by the alarm operator and a \$50.00 fine may be assessed by the Sheriff's Office.

SECTION EIGHT: DEACTIVATION OF AUDIBLE ALARMS

The alarm operator shall deactivate the alarm within fifteen (15) minutes or adjust the alarm to automatically deactivate within fifteen (15) minutes of activation. § 489.530 Florida Statutes, audible alarms.

SECTION NINE: ALARM MONITORING COMPANIES

- A. All alarm monitoring companies shall register annually with the Sheriff. Failure to register annually with the Sheriff's Office may result in a \$125.00 fine and/or any other administrative action against the alarm monitoring company. shall provide the following information:

- D. Monitoring companies shall ensure that their databases of contracted alarm operators reflect current, accurate names, street addresses, telephone numbers and operational status. If an alarm systems contractor provides notice of disconnection to a monitoring company, the monitoring company shall modify its database within five (5) calendar days. The monitoring company may be fined \$125.00 if the Sheriff is telephoned after a disconnection notice is received.

SECTION TEN: ALARM VERIFICATION CALLS REQUIRED

All burglary or intrusion alarm systems that have a central monitoring shall have central monitoring verification calls made to the alarm site, prior to alarm monitoring personnel contacting a law enforcement agency for alarm dispatch as per the Verification Standard, Exhibit A of this document. § 489.529, Florida Statutes, alarm verification. However, if the alarm has properly operating visual or auditory sensors that enable the monitoring to verify the alarm signal, verification calling is not required. Failure by the alarm system contractor or alarm monitoring company to make the verification calls may result in a \$125.00 fine.

SECTION ELEVEN: ALARM SYSTEM CONTRACTORS

- A. All alarm system contractors shall register annually with the Sheriff. Failure to register annually with the Sheriff may result in a \$125.00 fine and/or any other administrative action against the alarm system contractor. - F. Alarm system contractors shall not cause a false alarm during the servicing, repairing, testing or inspection of an alarm system, or a fine of \$125.00 may be assessed. The alarm operator shall not be charged with such false alarms.
- G. Alarm system contractors shall complete the application, collect the registration fees, and forward the application to the Sheriff's Office, whenever installing, maintaining, repairing, altering or servicing an alarm system, unless the alarm system contractor reasonably believes that the system is permitted.

Any and all liability and consequential damage resulting from the failure to respond to a notification is hereby disclaimed and governmental immunity as provided by law is retained. By registering the alarm system, the alarm operator acknowledges that law enforcement response may be based on factors such as: availability of law enforcement units, priority calls, weather

conditions, traffic conditions, emergency conditions and staffing levels.

SECTION SIXTEEN: ADMINISTRATION AND ENFORCEMENT

- A. The Sheriff shall be responsible for the administration and enforcement of this Ordinance.
- B. The Sheriff has the authority to compromise assessments of fines.

EXHIBIT A

ENHANCED TELEPHONE VERIFICATION OF BURGLAR ALARM SIGNALS

A. EXTENDED TIME

The time permitted for enhanced verification of non-certificated system may be extended beyond the time constraints imposed for certificated systems defined in UL Standard 827 as appropriate under the facts known by monitoring center personnel.

B. PROCEDURE

For alarm signals received from non-certificated commercial burglar alarm systems or any residential alarm system signal such as a burglar, duress or panic, the following procedures shall be followed:

1. **CALL 1**
The monitoring facility shall attempt telephone verification to the protected premises after receipt of the alarm signal.
2. **CALL 2**
If a monitoring facility operator gets a busy signal or no answer on the first call to the protected premises, a second call or calls shall be made to an alternate phone number such as a cellular, work or second number at the protected premises.
3. **ANSWERING MACHINES**
If the first or second call reaches an answering machine, a message should be left clearly stating that it is the alarm company calling and leaving necessary information for the alarm user to promptly contact the monitoring facility.
4. **PERSON ON PREMISES WITHOUT PROPER CODE**
If the operator reaches the protected premises on the first or second call and the person answering the phone does not have the proper pass code, then the operator shall attempt to make a 3-way call with the premises person retained as a party to the call. The 3-way call shall attempt to reach others on the call list to verify the authenticity of the person on the protected premises. If this process fails to resolve the issue, then the operator should proceed to notify the dispatch authority.

5. **SCHEDULED EVENTS**

If an alarm signal is received in connection with a scheduled opening or closing event, additional numbers shall be called on the call list in order to determine whether an opening or closing error caused the alarm signal.

6. **VERIFIED FALSE**

If the alarm is verified as being false during the first, second or succeeding call as a result of getting a valid pass code, the operator shall suspend activities relating to the specific signal being worked.

7. **NOTIFICATION CALL**

Call to the law enforcement authority such as 911.

8. **CALL LISTS AND PRIORITY**

Following notification of law enforcement authorities, attention shall be placed on completing the entire emergency call list with priority to achieve a cancellation of the dispatch if it is verified that no emergency exists. Subsequent to dispatch of a sworn officer, the priority of notification calls to phone numbers in the customer's data base shall be first to numbers where there is a high probability of reaching an alarm user. The succeeding calls shall be made next to neighbors, then to non-premises people such as relatives or secondary key holders.

9. **VERIFICATION PHONE ACCESSIBILITY GUIDELINE**

Care shall be taken to verify that the emergency call list phone numbers are to phones without call waiting, or alternately that *70 is programmed in front of the monitoring center phone number in the electronic digital communicator. The verification phones at the monitored premises shall be accessible after normal business hours (not locked up in an office), such as in the vicinity of commonly used entrances. The verification phones shall not direct callers to voice mail so that employees and cleaning people who are working after normal business hours may hear and answer the phone.

C. **ADDITIONAL METHODS**

Audio verification, video verification, or cross zoning shall be permitted in place of, or in addition to, the second verification call and shall be considered in compliance with this enhanced verification standard.
